Objective

- Motivated IT graduate with internship experience in Database Administration at E-Government, skilled in managing and maintaining to ensure data integrity and supporting system performance. Experienced in data capturing and technical support, with strong attention to detail and problem-solving abilities. With an excellent academic performance and a proactive approach to continuous learning.

Personal Details

- Nationality : South African
- Gender : Male
- Languages : English, IsiZulu, Sesotho

Experience

- Department of E-Government** August 2025 - January 2026
Database Administrator
 - Install, configure, and maintain database servers and related software.
 - Monitor database performance and optimize slow-running queries.
 - Implement and manage database backups and restore procedures to ensure data safety.
 - Create, configure, and monitor SQL Maintenance Plans (backups, integrity checks, index maintenance).
 - Manage and maintain the Database Activity Monitor (DAM) for tracking activity, auditing, and detecting suspicious behaviour.
 - Ensure database security through access control, encryption, and regular audits.
 - Troubleshoot database errors, failures, performance issues, and connection problems.
 - Maintain database documentation, policies, and standard operating procedures.
 - Create and manage database users, roles, and permissions.
 - Ensure data integrity, consistency, and compliance with organizational standards.
 - Work with developers, analysts, and IT teams to support application database needs.
- Gauteng Department of Health :Kopanong District Hospital** 2025 January - 2025 July
Technical Support Intern /Data Capturer
 - Provided first- and second-line IT support to hospital staff by troubleshooting hardware, software, and system issues.
 - Set up, configured, and maintained laptops, desktops, printers, and mobile devices
 - Managed user accounts using Microsoft 365 and Active Directory, including account creation, access control, and password resets.
 - Assisted with basic network administration, troubleshooting connectivity issues involving routers and switches.
 - Maintained the IT asset register and updated technical documentation.
 - Supported data backups, system monitoring, and cybersecurity practices such as MFA and endpoint protection.
 - Logged and resolved IT support requests to ensure efficient service delivery.
 - Liaised with external IT vendors during system maintenance and technical support tasks.
 - Captured and updated HIV/TB patient data and laboratory results in the TIER system and EDR, ensuring high data accuracy.
 - Verified and validated lab results (VL, CD4, GeneXpert) to maintain data integrity and quality standards.
 - Maintained electronic and physical records, ensuring proper documentation and secure record management.
 - Generated weekly and monthly reports and statistics to support monitoring and decision-making.
 - Conducted routine data quality checks to ensure completeness and accuracy of health information systems.
 - Collaborated with clinicians and laboratory staff to resolve missing or delayed lab results.
 - Supported data management processes and administrative tasks, including filing, scanning, and document tracking.
 - Assisted in maintaining data systems and reporting processes to improve operational efficiency.
- Department of Home Affairs** 2024 April - 2025 January
Civic Clerk
 - Captured, organized, and secured large volumes of records.
 - Applied metadata and classification for efficient data retrieval.
 - Supported compliance, audits, and data lifecycle processes.
 - Developed strong skills in data governance and cloud-readiness.
 - Handle payments, balance cash, and follow financial control procedures.
 - Report system issues, irregularities, or fraudulent documents.

Education

- Vaal University of Technology** 2026
Advanced Diploma in Information Technology
NQF Level 7 : Average 78%

- **Vaal University of Technology** 2023
Diploma in Information Technology
NQF Level 6: Final year average: 81%
- **Sedibeng TVET College** 2018
Mechatronics Engineering
NCV Level 3
- **Katleho-Impumelelo Secondary School** 2016
Matric
Admission to Bachelor's degree

Certification

- - Microsoft Certified: Azure Fundamentals
 - Microsoft Azure Administrator
 - Microsoft 365 Fundamentals
 - Configuring and Operating Microsoft Azure Virtual Desktop
 - IBM Cloud Computing Fundamentals
 - IBM Cybersecurity Fundamentals with Capstone Project
 - IBM Introduction to Cybersecurity Tools & Cyber Attacks
 - IBM Data Analysis with R
 - IBM Big Data Emerging Technologies
 - Introduction to DevOps with ALISON
 - CCNA Routing and Switching: Routing and Switching Essentials
 - CCNA Routing and Switching: Introductions to Networks
 - Selenium Basics with Great Learning
 - IBM Introduction to Artificial intelligence

Skills Summary

- **Programming and Query language**
Python, MySQL, JAVA, HTML, CSS, Javascript
- **Platforms and Systems**
SQL server Management, Visual Studio Code, Microsoft 365 Suite, TIER.Net, EDRWeb, Cisco Packet Tracer, Windows.
- **Soft Skills**
Innovation, Adaptability, Good Communication and intra personal skills, Problem-solving, Active Listening, Team Player, able to work under pressure, Approaches challenges with enthusiasm and professionalism and Proactive Attitude.
